

REPORT

FROM THE

SECRETARY OF THE TREASURY,

IN COMPLIANCE

*With a resolution of the Senate of the 26th February, 1838, transmitting statements of the rates of exchange and prices of bank notes at different periods.*

MAY 28, 1838.

Laid on the table, and ordered to be printed.

TREASURY DEPARTMENT,  
*May 26, 1838.*

SIR: I have the honor to transmit the accompanying tables, in compliance with the following resolution of the Senate, adopted on the 26th of February, viz:

"Resolved, That the Secretary of the Treasury be directed to cause to be prepared, and communicated to the Senate, tables of the rates of exchange, foreign and domestic, and of the price of bank notes, at different periods, from such materials as are in the department, and such others as can be conveniently procured."

The tables embrace—

1st. The prices of bank notes and of specie, at Philadelphia, on or near the first day of each month, from November, 1814, to May, 1838.

2d. The rates of foreign exchange at Philadelphia, on or near the first day of each month, from May, 1825, to May, 1838.

3d. The rates of domestic exchange at Philadelphia, from January, 1834, to May, 1838.

4th. The rates of foreign and domestic exchanges and of specie at New York, from February, 1825, to May, 1838.

5th. The prices of bank notes at New York, from January, 1835, to May, 1838.

6th. The rates of exchange and prices of bank notes in several other parts of the Union, and at several dates, since the suspension of specie payments.

7th. Condensed statements showing the highest and lowest prices of bank notes at Philadelphia, in each year from 1814, to 1838, and at New York, from 1835, to 1838.

Blair & Rives, printers.

8th. Condensed statements showing the highest and lowest rates of foreign exchange and specie at Philadelphia, in each year from 1825 to 1838, and of domestic exchange from 1834 to 1838.

9th. Condensed statements showing the highest and lowest rates of foreign and domestic exchanges and of specie at New York, in each year, from 1825 to 1838.

10th. Condensed statements of the rates of foreign exchange and specie at Philadelphia, and of the price of specie at London, in each year, from 1788 to 1838.

I have the honor to be,

Very respectfully,

Your obedient servant,

LEVI WOODBURY,

*Secretary of the Treasury.*

Hon. RICHARD M. JOHNSON,

*Vice President of the United States,*

*and President of the Senate.*

#### MEMORANDA.

The American dollar contains  $371\frac{1}{4}$  grains of pure silver, or 416 grains of standard silver.

The Spanish dollars are not all of the same weight. Those in circulation in 1829 were said by the director of the mint to be worth, on an average, 100 cents 3 mills.

The Mexican dollars are said to be equal to the Spanish.

The "Carolus" dollars are the Spanish dollars coined prior to the year 1809, in the reigns of Charles III. and IV. They are said to be not superior in weight and fineness to the Mexican.

The American eagle of the old coinage, previous to the 31st of July, 1834, contained  $247\frac{1}{2}$  grains of pure gold.

The American eagle of the new coinage contains 232 grains of pure gold.

The British sovereign, when coined, contains 113 grains and  $1\frac{3}{4}$  parts of a grain of pure gold, worth, according to our present mint valuation, \$4 87 $\frac{7}{16}$ .

The Spanish doubloon should, according to the regulations which have nominally prevailed since the year 1772, contain 376 grains of pure gold, which would, at our mint valuation, be worth 16 dollars 20 cents. But, according to assays made at the London and Philadelphia mints, previous to the year 1829, Spanish doubloons contained only from 360 to  $362\frac{4}{5}$  grains of pure gold. This would make their average value, at our mint valuation, about \$15 56 $\frac{3}{4}$ .

The Patriot doubloons are said to be equal in weight and fineness to the Spanish.

The difference in the price of Spanish and Patriot doubloons, and of the different species of dollars, at New York and Philadelphia, is chiefly owing to difference of demand for them in foreign markets.

In the price currents, \$4 44 $\frac{1}{4}$  are assumed as the par of exchange on England. This practice began when the Spanish pillar dollars were in

circulation, and when the market value of gold, compared with silver, was less than it is at present. The true par varied as the market value of gold varied, when compared with silver. It was estimated by Mr. Gallatin, writing in 1829, at 7 per cent. above the nominal par; by others, at 8 per cent.

Since the passage of the act of 1834, for reforming the American gold coinage, the true par exchange with England, estimating gold against gold, is about  $9\frac{7}{10}$  above the nominal par.

The quotations of exchange on France are so many francs and centimes payable in France for a dollar paid here. According to the regulations of the French mint, the silver franc should contain 69.453 troy grains of pure silver, equivalent to  $18\frac{793}{1000}$  cents in silver currency of the United States. The quantity of pure silver in an American dollar is equal to that in 5 francs  $34\frac{534}{1000}$  centimes. But as foreign coins are not a legal tender in France, and as a seignorage of about  $1\frac{1}{2}$  per cent. is charged on silver coinage at the French mint, American dollars, when sold as bullion in France, are said to bring, on an average, not more than 5 francs  $26\frac{25}{1000}$  centimes. This is, by some writers, assumed as the par of exchange on France. Other writers assume 5 francs 34 centimes as about par.

The quotations of exchange on Holland, are so many cents a guilder; on Hamburg, so many cents a mark banco; and on Bremen, so many cents a rix dollar.

The exact value of the guilder of Holland is  $39\frac{97}{100}$  cents of United States silver currency; but 40 cents are usually assumed as the par of exchange.

The mark banco of Hamburg is a money of account equal to  $35\frac{144}{1000}$  cents United States currency.

The rix dollar of Bremen is a money of account, equal to 80 cents and a very small fraction United States currency.

The quotations of foreign exchanges are for bills payable sixty days after sight.

The quotations of domestic exchange are for bills payable at sight.

In these tables, the prices of exchange, bank notes, and specie, at Philadelphia, are such as are given in Grotjan's Public Sale Report, and continuations of the same under different titles, by different persons, with the exception of the year 1833, when this weekly publication was intermitted. The quotations for that year are from Poulson's American Daily Advertiser.

The prices of exchange, bank notes, and specie, at New York, have been taken from the "Shipping and Commercial List and New York Price Current."

In the following tables the letter d. stands for discount and p. for premium.

## NOTES TO TABLES, &amp;c., 1814 &amp; 1815.

The Philadelphia banks suspended specie payments on the 30th of August, 1814, and the other banks in the middle and southern States within a week or two of that date. But no quotations of the value of bank notes were given in the price current previous to the 31st of October.

The banks of New Orleans suspended specie payments in the latter part of April, 1814. The banks of Ohio and Kentucky sustained specie payments till about the 1st of January, 1815, and the Bank of Nashville, Tennessee, till July or August, 1815.

Some of the banks in Maine suspended specie payments in the early part of 1814. The other banks in New England sustained specie payments till May, 1837.

A committee of the Senate of Pennsylvania, in a report dated January 29, 1820, Condy Raguet, chairman, speaks of the banks of Philadelphia as having *nominally* resumed specie payments on the 21st of February, 1817: "We say *nominally*, because in point of fact, a *bona fide* resumption did not take place, as is evident from the well known circumstance, that, for a long time after that period, *American* as well as foreign coins would command on the spot a price in city bank notes above their nominal value."

The Weekly Price Current is silent in respect to the price of specie, with the exception of the price of Spanish dollars from July to the close of the year.

A committee of directors of the United States Bank, in a report dated October 30, 1818, give as one reason why a curtailment of discounts was necessary, "the unexampled premium paid at this time for specie, which is said to be ten per cent. on Spanish dollars, and a considerable though less premium on other coins."

Mr. Niles, from whose Weekly Register the rates at New York and Baltimore have been taken, says the prices of bank notes varied several per cent. in the course of a week. The notes which were at par in one part of the country, were in other parts at a heavy discount. At the same time that exchange at New Orleans on New York was at from seven to ten per cent. discount, exchange at New York on New Orleans was at six per cent. discount. All the banks whose notes were at a discount at New York of less than five per cent., and some of the others, were understood to pay specie on demand.

*Notes on the table of the price of bank notes at New York during the year 1837.*

The table contains the rate at which the notes of most of the banks quoted. But it is not unusual for the notes of one or more of the banks of a State to be one or two per cent. higher or lower than those of the other banks in the same State. For example:

*January 4, 1837.*

**VERMONT.**—Bank of Burlington, par. Bank of St. Albans,  $\frac{1}{2}$  discount.

**CONNECTICUT.**—Norwich, under \$10,  $\frac{1}{2}$  disc. Quinebaug, Whaling, Stonington, 1 discount.

**NEW YORK.**—Brooklyn banks, par. Seven other banks, par. Fifteen banks,  $\frac{1}{2}$  disc. Two banks,  $\frac{1}{4}$  discount.

**PENNSYLVANIA.**—Gettysburg and Towanda, 1 disc. Bank of Chambersburg and Bank of Erie,  $1\frac{1}{2}$  discount. Bank of Pittsburgh and Merchants and Manufacturers', Pittsburgh, 2 discount. Monongahela Bank, 3 discount. Lumbermen's Bank,  $3\frac{1}{2}$  discount.

**NEW JERSEY.**—Salem and New Hope, 1 discount.

**MARYLAND.**—Union Bank of Baltimore, par.

**DISTRICT OF COLUMBIA.**—Bank of Metropolis,  $\frac{1}{4}$  discount.

**FLORIDA.**—Southern Life Insurance and Trust Company, par.

**OHIO.**—Cleveland, Commercial Bank of Lake Erie, Massillon, Sandusky,  $1\frac{1}{2}$  discount.

**MICHIGAN.**—Bank of Washtenaw, 3 discount.

The notes of the above banks were, during the year, a little higher or a little lower than the notes of the other banks in the same States.

The Price Current contains quotations of the rates of none of the banks of South Carolina, except Charleston; of only four of the banks of Georgia; of none of the banks of Alabama, except the Mobile Bank; of none of those of Louisiana, except the New Orleans banks.

The quotations given in the table for May 17th and 24th, are those of the other banks of Florida, excluding the Southern Life Insurance Company.

The quotation for December shows the rate of the notes of the Southern Life Insurance Company; no notice being taken in the New York Price Current, of that day, of the rate of discount of the paper of the other Florida banks.

*May 3.*

**MICHIGAN.**—No quotations of the notes of the Farmers and Mechanics' Bank, Michigan State Bank, Bank of St. Clair, or Bank of Washtenaw.

*May 17.*

No quotations of the rates of—32 banks in New York; 5 banks in Pennsylvania; 4 banks in Ohio; or of any banks in Michigan.

The dashes— in the table mark the days when no quotations were made of the notes of any bank in a given State or Territory.

*June 7.*

No quotations of—2 banks in Maine; 4 banks in Vermont; 3 banks in Massachusetts; 6 banks in Rhode Island; 18 or 20 banks in Connecticut.

**NEW YORK.**—Brooklyn and 10 other banks at par. Bank of Buffalo, Commercial Bank of Buffalo, Lockport, and Sackett's Harbor, 10 discount.

*July 1.*

NOTE.—The rates of exchange, and the value of the paper medium of England, have been taken from a table appended to the letter of the Secretary of the Treasury, of May 29, 1830.

From the same table has been taken the price of standard gold at London from 1800 to 1814. The London prices of standard gold, from 1790 to 1800, and of Spanish dollars, from 1790 to 1814, have been taken from Marshall's Statistics of the British Empire.

The prices of gold and of Spanish dollars are expressed in shillings and pence sterling.

Considerable difference exists among authorities as to the prices of gold, and the depreciation of the paper medium, during the suspension of specie payments by the Bank of England.

The following was the rate of exchange on England at Boston and Baltimore, from 1800 to 1810, embracing the years for which no quotations are given at Philadelphia:

Year.	At Boston.	At Baltimore.
1800	4½ d. to 3 p.	2 d. to 5 p.
1801	1 to 5 d.	4 d. to 2 p.

The rates of exchange from 1815 to 1823, the value of the paper medium of Philadelphia from 1815 to 1818, and the London price of standard gold from 1815 to 1825, have been taken from a table appended to the Treasury report of May 29, 1830.

In forming that table, 5 francs 26 centimes were assumed as the par of exchange on Paris, and 40 cents a guilder, as the par of exchange on Amsterdam.

In calculating the rates of exchange on Paris and Amsterdam, from 1829 to 1838, it has not been thought necessary to assume a new par.

The prices of Spanish dollars in London from 1815 to 1818, have been taken from Marshall's Statistics of the British Empire.

The prices of standard gold at London from 1826 to 1832, and of Spanish dollars at London from 1819 to 1832, have been taken from the "Report from the Committee of Secrecy on the Bank of England Charter."

From the "Report of the Select Committee on the Royal Mint," ordered to be printed June 30, 1837, it appears that, though standard gold has been steadily quoted in the price currents since the year 1832, at 77 shillings and 9 pence per ounce, it is not unfrequently sold at 77 shillings and 10½ pence. On this authority, and that of some late English papers, the price of gold is represented in the table as having been the same from 1833 to 1838, that it was from 1829 to 1832.

There are no documents in the Treasury Department which show the price of Spanish dollars at London, of a later date than August, 1832.

A TABLE showing the corresponding rates of exchange on London, at a per centage, premium, and discount, on the nominal par of four shillings and six pence, or fifty-four pence per dollar, and at so many cents per pound sterling; and showing also the corresponding value of the dollar, and of the ounce Mexican dollars with those rates.
